

Reinvented for tomorrow

Modernise your business communications with a Complete Cloud Based Platform for Voice and Video calls, Contact Centre, Meetings and Innovative Call Features that deliver Exceptional Customer Experience.

Secure Voice and HD Video Calling

IPVoice delivers all the features you expect from a phone system to ensure you are always productive with no disruption to your business.

Stay on the move with your Mobile App

No matter where you're working, with the IPVoice App you can be reached on your business number from anywhere, on any device.

Single App for Video and Voice Calls, Chat and Meetings

IPVoice combines all your business communications in one secure, easy-to-use app for voice calls, meetings and chat.

Connect your CRM and Apps

IPVoice integrates easily with leading CRM providers so you know who is calling.

Missed Calls, Missed Business

Snap back missed business opportunities with unreturned missed calls on your live wallboard, so you can phone those customers back now.

Analytics to better your decisions

With IPVoice Analytics you can get deeper insight into your daily call statistics to understand your customer interactions. Improve business efficiencies, customer service and improve your call performance.
